## **DETAILED ACTION**

### ***Response to Remarks***

1. Applicant's remarks, see page 6-10, filed 1/31/2007, with respect to "Claim Rejection Under 35 U.S.C. §103" have been fully considered and are persuasive. The rejection of claims 1-8 has been withdrawn.

### ***Specification***

2. The disclosure is objected to because of the following informalities:

The amendment to paragraph 0035, see page 5, filed on 1/31/2007, amend the paragraph 0035 in line 13 from "34a" to "34b". However, with respect to figure 5, contact 34b of modulation control switch 34 is connected to the ground and therefore have zero impedance. Please change the "infinite impedance" in line 14 to "zero impedance".

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 1 recites the limitation "said modified phase modulated reflectance data bit stream" in line 6. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 1, 3, 4, 6, 7, 8 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

With respect to claims 1, 4, 7 and 8, the new limitation **“at least one power splitter such that the antenna has a high impedance in the event a “1” is to be sent and a low impedance in the event a “0” is to be sent, wherein that at least one power splitter selectively connects at least one matched load to the antenna, and wherein the matched load is also connected to ground”** is added. This limitation indicates that the power splitter has a selecting capability that can selectively connect at least one matched load to the antenna. According to the disclosure (paragraph 0035), the selecting of passing the output of the modulation control switch 34 through the power splitter is perform by the power shunting switch 52a and 52b and the power splitter does not have selecting capability. The new limitation is not support by the specification.

***Conclusion***

Art Unit: 2611

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Neagley et al. (US 2002/0128052 A1) discloses a long-range, full duplex, modulated-reflector cell phone for voice/data transmission.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
